

Remzi Ayberk Cimen

Education

New York University Abu Dhabi, BS in Computer Science, GPA: 3.8/4.0	Sept 2025 – May 2029
Private Nesibe Aydin Science High School, Konya/Turkiye, GPA: 4.0/4.0	Sept 2021 – June 2025

Experience

Production Assistant @NYUAD External Relations and Communications	Sept 2025 – Present
Supported the end-to-end production of promotional content (filming, editing, equipment management) used in key university marketing and public engagement campaigns.	
Automation Intern @Ember Lifestyle	Spring 2026
Assisted the company with creating AI automations for its CMS and TMS systems.	
Freelance Web Developer & Designer	Sept 2021 – Present
Successfully delivered 50+ full-stack web applications using the MERN & Next.js stacks for a diverse international clientele.	

Projects

Cofounder , Colleged.net	Jan 2026 – Present
- Coded the platform, managed the network, and ran operations for an online marketplace connecting high schoolers with Ivy League student mentors. - Reached 10K+ students, with 500+ users and 200+ advisors from top Ivy League universities on the platform. - Won 2nd place at the StartAD Incubator.	
Founder & Contributor , Open Software Network (NGO)	github.com/acikyazilimagi
- Co-founded an NGO to develop disaster relief technology after the 2023 Turkey earthquake, creating an interactive need-map used by search and rescue teams. - The platform achieved massive scale, reaching 50+ million visits and 1 million unique users. - Contributed front-end code and translated documentation to enable international developer collaboration.	
Team Lead & Programmer , Anatolian Light	Sept 2022 – Present
- Led team to be selected 14 of 40,000+ at the Teknofest Health Tech Contest for designing a VR headset with a Raspberry Pi and LSTM model for early autism diagnosis. - Won the CERN Beamline for Schools Social Responsibility Award for conducting physics experiments for 50+ children with autism.	
Project Lead , "Earthsake" Mobile App	May 2024
- Developed a mobile app to detect earthquake victims under rubble by leveraging phone sensors, Bluetooth Low Energy, GPS, and the USGS API. - Selected as a global finalist (top 500 of 25,000+ participants) in the Rise for the World Challenge.	
Founder & Advisor , Konya Model United Nations	konmun.org
- Founded the first MUN conference in the city, managing a \$150K budget and a 100-person team to host 250+ international delegates. - Developed and maintained the conference website and all digital infrastructure. - Won 7 individual awards in other conferences, including two Best Delegate awards.	
Co-Founder , Programming Forum	yazilimtoplulugu.com
Turkey's biggest programming forum with 4,000+ members. Authored&Moderated articles on web dev.	

Research

Data Poisoning Methods on Language Models	Sept 2024
Analyzed trigger word performance in data poisoning attacks to find contextual dataset links. <i>Under Dr. Hanan Hibshi (CMU). Grade: A, 4 credits (Oberlin).</i>
